PROMOTING SETTLEMENT

For some time past there has
come news from Manitoba and the
Northwest Territories showing that
an extensive migration has set in
from the other side of the interna-
tional line. From Dakota also, we
learn of the success of those who
have left that state to settle in Can-
ada, and of the eager resolve of
many of their old neighbors to fol-
low their example. This important
and welcome movement has been
sedulously and effectively fostered
by the agents of the Canadian Gov-
ernment, who have done much to
bring about this good result. There
are three agents of our Department
of Agriculture working in Dakota
with this end in view, and their suc-
cess shows how well they have been
selected for their task. A recent
official report from them gives the
satisfactory information that a large
immigration to our Northwest con-
tinued to take place during the
month of September. Beside this
no less than fifty farmers left in the
capacity of delegates to investigate
our agricultural resources, and after
a stay of about three weeks returned
with most favorable accounts, which
were printed and largely disseminat-
ed by our agents. Another use-
ful step taken by these gentlemen
was the exhibition at the agricultural
fair at Aberdeen, South Dakota, of
samples of the produce of our North-
west, supplied by the general agent
at Winnipeg. It is not surprising
to learn that this exhibit attracted
great admiration.

The settlers we are thus receiving
are a great acquisition to our coun-
try in every way. They are binging
with them, it seems, a large quantity
of cattle, horses and agricultural im-
plements, which will enable them to
make a good start. Another satis-
factory feature is that by far the
greater number of these settlers are
Canadians—victims who were lured
to their loss by the unpatriotic mis-
representations of the leaders of the
Canadian Opposition, but who have
now had their eyes opened to the
falseness of the statements by which
they were deluded.

"A striking evidence of the success
of these settlers in their new homes
and at the same time of the good
work done by our Canadian immi-
gration agents in Dakota, is in the
shape of a circular, now before us,
containing a testimonial addressed
to these gentlemen. It is signed
by thirty-six heads of families, re-
presenting a hundred and thirty
souls, former settlers in South Da-
kota, but now established near York-
ton, Assiniboia. They declare that
the representations of our agents
have been more than borne out by
their experience of the facts. The

natural advantages of our country,
and the salutary policy of the states
men who guide our affairs have se-
cured us this satisfactory migration.
Such is the kind of exodus now
established to counteract the exodus
set on foot and gloated over so mali-
ciously by the Grit politicians. Can-
ada can easily stand the injurious
attacks of its handful of domestic
enemies.

IN THE SOUP ONCE MORE.

The deadly parallel is again get-
ting in its work. While trying to
raise a feeling against Mr. Betts,
the machine editor of the *Saskatche-
wan* is brought face to face with
two of his own opinions, each so
directly opposed to the other that
further attention to him or the prin-
ciples which actuate his conduct
would be a wanton waste of time,
were it not that the interests of our
district demand constant attention
and must be attended to, even
though the work entail the unsavory
task of looking after a man who
may be guilty of such glaring in-
sincerity as is shown by the letter
from "One That Was There," pub-
lished in another column. For
weeks the machine has been send-
ing out concentrated nonsense with
the view of injuring the reputation
of Mr. Betts, and bringing discre-
dit on this part of the Saskatchewan,
and to such an extent has it gone
that thinking people have become
disgusted with the effort, old com-
panions now start exposing its du-
plicity, and to day Mr. Betts stands
higher in public estimation than
ever before.

The last effort of the *Saskatche-
wan*, while containing no more of
fact than previous issues, can cer-
tainly take credit for being a little
more decent in its choice of lan-
guage and shows clearly that the work
of THE TIMES, "An Old Liberal"
and a "Constant Reader," is hav-
ing its effect. Let the good work
go on. In time earnest workers for
good may convince even a man of
the editor of the *Saskatchewan's*
calibre, that honest warfare is al-
ways the best. If, in the past, as
the *Saskatchewan* intimates, we have
paid too much attention to its ma-
ger, we apologize to a generous
public for the fault. Like it, we feel
that he was hardly worth serious
attention, and the truth of so liberal
a conclusion will be fully demon-
strated by a careful reading of the
following opinions publicly expres-
sed:—

Editorial *Saskatche-
wan*, Oct. 21st.
Correspondent's re-
port of a part of the
managing editor's
speech at a meeting
held in the east end
of the town:—
"I quite agree with
all that has been said
respecting Mr. Pax-
ton's term of office. He
was too busy to ac-
complish his duties, and
has been our repre-
sentative for three well
known principles,
and has principles of
constitutional govern-
ment himself, but by
unfortunate circumstances
and should not be the
agent of the Legisla-
tive Assembly, etc., etc."

GENERAL NEWS.

Ottawa, Oct. 22.—The militia department has been at work for the past three weeks preparing a report on the defence of Canada asked for by the Imperial Government. It will be ready in a week.

Leist. Col. Wilkinson, commandant of the 24th Essex Fusiliers, publishes his valedictory in the Militia Gazette. He is about to remove to the Northwest.

Montreal, Oct. 22.—The Dominion board of examiners for the inspection of flour and meal and the fixing of standards held their annual meeting to-day. Among the members present were D. H. McMillan, Chas. N. Bell and Stephen Nairn, of Winnipeg. The members got through with their work, and report that the standards are practically the same as last year.

Toronto, Oct. 22.—James Harring, one of Toronto's oldest citizens, is dead, aged 92. Deceased participated in the rebellion of 1837.

Sarnia, Oct. 22.—The death is announced from Chicago at the age of 77 of Wm. McLean, formerly a prominent resident of Lambton county. Deceased took an active part in suppressing the rebellion of 1837.

Peterboro, Oct. 22.—Robert Peters, an old soldier, who saw service in the West Indies and in the rebellion of 1838, is dead.

Toronto, Oct. 22.—In a speech delivered at Woodbridge, Ont., yesterday Hon. Mr. Carling, speaking of reciprocity, said the country was not going to get down on its knees to beg for it. Canada, he declared, was prepared to meet with the United States to discuss free trade and if a fair and reasonable reciprocity treaty could be arranged the Government was ready to enter it.

Peterboro, Oct. 22.—John Walton, a prominent resident of this county, is dead, aged 84. William Walton of Beulah is his son.

London, Oct. 22.—There was a renewal of fierce gales over England last evening, and at the moment of writing there seems to be relief in sight for the storm beaten island. At Sangate, Kent, an unknown bark is ashore. Notwithstanding the fact that a fearful sea is rushing and roaring through the English Channel, the crew of the local life boat have braved the storm and put out to the relief of the endangered sailors.

Dispatches from every part of Great Britain are arriving, all telling of the vastly increasing floods. It is feared that the damage consequent upon the submerging of property will aggregate an enormous sum. For a distance of thirty miles the Thames has overflowed its banks.

London, Oct. 22.—Despatches received here this morning announce the death at Mattazellekan, from exhaustion, of Doyle Glanville, the leader of the British South African expedition.

Berlin, Oct. 22.—Carmen Sylva, the Queen of Roumania, is arranging for her return to Buckarest next week. She has considerably improved in health.

The Kaiser has given his sanction to the changes proposed by the war office in the appearance and equipment of the German army. The chief object sought to be achieved is the exchange of bright colors that attract the aim of an enemy, for that will make the soldier a less conspicuous target. White leather accoutrements are abolished, and the heavy spiked helmet is discarded for lighter headgear. The changes, when effected, will almost entirely transform the appearance of the German troops.

Prof. Koch's article in a medical paper does not come up to the expectations of the medical professors or the public. He admits that he has not yet reached the object of his efforts—the isolation and refinement of the tubercule. Despite repeated and careful attempts to extract an efficacious substance from the uretised and raw tubercule and eliminate therefrom the poisonous matter, he has only succeeded in manufacturing a preparation of tubercule, which is freed from a part of the deleterious substance, but from all. His first experiments failed, but he obtained the best results with a mixture containing 60 per cent alcohol. The precipitate thus obtained is regarded as almost pure.

Paris, Oct. 22.—The Rhone is still rising and has caused immense damage in the departments of Ardeche & Gard.

Odessa, Oct. 22.—Plentiful rains in Southern Russia, except Bessarabia and Kherson have revived the prospects for good crops, and ploughing and sowing is going vigorously forward, while the peasants are hopeful.

The police of Berlin are to be armed with carbines in addition to the revolvers now in use. The carbines are to be used

only in cases when it becomes necessary to disperse large bodies of rioters.

Halifax, N.S., Oct. 22.—Of 44,500 seals caught in Behring sea this season, 24,000 were taken by the sixteen Nova Scotia schooners-fishing in that water. The results have been so encouraging that Nova Scotia capitalists are now fitting out a fleet of ten vessels to proceed to the Pacific and engage in next season's fishery.

Toronto, Oct. 22.—Major-General Herbert, accompanied by Capt. Streatfield, A.D.C., spent the day in making his annual inspection of C. School of Infantry. The general left to-night for Winnipeg, where he will inspect the Royal School of Instruction and Cavalry.

A new Highland Scotch regiment was organized to-night. About 150 enrolled themselves. Capt. McDougall of C Company, is in command pending the appointment of a regular commandant.

I CURE FITS!

When I say I cure I do not mean merely to stop them for a time and then have them return again. I mean a radical cure. I have made the disease of FITS, EPILEPSY or FALLING SICKNESS a life-long study. I warrant my remedy to cure the worst cases. Because others have failed is no reason for not now meeting a cure. Send at once for a treatise and a Free Bottle of my Infallible remedy. A few thoughts concerning

ASTHMA

Its Cause and Cure

Most interest every one afflicted with this terrible disease. To describe this disease to one that has suffered for years the untold agonies of suffocation and distress night after night and who in many extreme cases would only gladly welcome death in order to be relieved from such suffering with no prospect of ever being any better is not pleasant to contemplate. All the boasted remedies heretofore claimed to cure Asthma have failed or only given temporary relief. The smoking of leaves and barks, saturated paper and pastilles has been resorted to as the last means for only a temporary relief anything being considered a blessing that will release the grasp of the fingers of death even for a short time, which seems to brighten every moment more and more; the sufferer knows that this is Asthma.

Temporary suffocation, in a few days relieved, and no good reason can be given as to the cause of these sudden changes and return of suffering, only by the poisonous blood acting on the nerves producing the disease. In Asthma there is a
SPECIFIC POISON in the blood that must be DESTROYED
before Asthma can be

CURED

This poison is oft-times inherited and passed through many generations, like Scrofula, never losing its power to produce Asthma and oft-times affecting the lungs and bringing the sufferer down to a Consumptive grave. Location, with surrounding causes will arouse and set to work this poison in the blood, so that in some sections of the country an Asthmatic cannot live, even in one part of a city their suffering is intense, move to another part and they are entirely free from Asthma. Thus you learn that there exists a certain poison in the system, that when certain influences are brought to bear that exist in the Atmosphere in many localities will develop this poison in an unusual degree thereby affecting the NERVES, producing spasms and difficult breathing, which every Asthmatic has had such sad experience with, suffering, and no hope of being cured; for having tried every known remedy, exhausted the skill of the physicians, have given up in despair.

After years of study and patient research and watching this disease in all its various and peculiar circumstances we present a cure for Asthma known as DR. TAFT'S ASTHMALENE, which will entirely destroy this poison in the blood and restore the nerves to a healthy condition and when this is done the spasms will cease, the choking will subside, and the injury done to the lungs will begin at once to be repaired and the nerves restored to perfect health. ASTHMALENE is unlike all other so called Asthma cures, as it contains NO Opium, Morphine, Ipecac, Squilla, Lobelia, Ether, Chloroform or any other Anodyne or Narcotics, but its combination is of such a nature that it will destroy every particle of this poison in the blood and eliminate it from the system, effect a cure and give a night's sweet sleep. We have received thousands of testimonials from every State in the Union of the marvelous cures from the use of the ASTHMALENE. We have never published them, for testimonials have been manufactured so extensively and sold so cheap that people have no confidence in them.

WE DO NOT WANT YOU TO SEND US MONEY

We do not make out a long list of prying, personal and impertinent questions, nor do we resort to any claptrap or any nonsense of any kind in order to make monthly or permanent patients; we only ask any one suffering from Asthma to TRY A FEW DOSES of Asthmaleene. We make NO CHARGE FOR a trial bottle to sufferers from this terrible malady. Send us your name on a postal card and we will mail

FREE

Enough of Dr. Taft's Asthmaleene to show its power over the disease, stop the spasms and give a good night's rest, and prove to you (no matter how bad your case) that ASTHMALENE IS A CURE ASTHMA, and you need no longer neglect your business or sit in a chair all day gasping for breath in fear of suffocation. Send your full name and address on a postal card to THE DR. TAFT MED. CO., ROCHESTER, N. Y.

"German Syrup"

A Cough and Croup Medicine.

For children a medicine should be absolutely reliable. A mother must be able to pin her faith to it as to her Bible. It must contain nothing violent, uncertain, or dangerous. It must be standard in material and manufacture. It must be plain and simple to administer; easy and pleasant to take. The child must like it. It must be prompt in action, giving immediate relief, as children's troubles come quick, grow fast, and end fatally or otherwise in a very short time. It must not only relieve quick but bring them around quick, as children chafe and fret and spoil their constitutions under long confinement. It must do its work in moderate doses. A large quantity of medicine in a child is not desirable. It must not interfere with the child's spirits, appetite or general health. These things suit old as well as young folks, and make Roscher's German Syrup the favorite family medicine.
